

*Dear Members,*

*There are a number of timeshare "service companies" that are advertising and telemarketing to help members "get out of their timeshare." These companies may call saying they are holding a meeting for all members "to learn about the changes in your timeshare ownership" or through several other tactics. The purpose of these meetings and tactics is to convince owners to pay service fees to get you out of your membership! Sadly, many members fall victim to these companies - often losing thousands of dollars while continuing to be responsible for past and potentially future maintenance fees.*

*If anyone has a question about their ownership with Club Cascadas, please contact Trading Places Management or the on-site sales office. Please remember Club Cascadas has an active sales program on site that may be able to find a solution for your week.*

*You own at a very special resort. On behalf of management and your board of directors, we spare no effort to look after everyone's best interest and warn you about these operators.*

*We look forward to having you back in Cabo soon!*

*Mauricio Quezada*

*Chief Operating Officer*
